

Media Archive

The Forest Guild staff and members collectively have literally millions of hours of on-the-ground experience in keeping our forests vital. We are interested in sharing our expertise and passion for excellent forestry—forestry that is ecologically, economically, and socially responsible forestry. Media wishing to identify an excellent forestry expert anywhere in the country should contact Marcia Summers at 505-983-8992, ext. 20. Current press releases and news stories are available here
