

Barnstable County AmeriCorps Cape Cod

Why Barnstable County AmeriCorps Cape Cod?

Do you have a passion to serve the community?

Do you like to work outside?

Are you interested in conservation?

Are you interested in living communally on Cape Cod?

Do you want to train to become a wildland firefighter?

...then AmeriCorps Cape Cod could be for you!

Who we are...

We are a group of 32 service-minded adults who respond to the diverse needs of Cape Cod's citizenry and environment through service in four focus areas:

- Natural Resource Management
(land and water conservation)
- Disaster Preparedness and Response
- Environmental and Community Education
- Volunteer Engagement

What we do...

Whether we are removing invasive plant species on conservation land, propagating oysters with a town's shellfish department, opening shelters during a storm, or educating local students about the importance of water quality, we strive to meet the diverse and dynamic needs of the Cape Cod community.

Six of our members comprise the FireCorps and serve directly with the National Park Service Cape Cod National Seashore to perform fire mitigation and prevention activities, while training to become wildland firefighters.

All members reside in one of our three program-provided houses as they complete 1,700 hours of service over an 11-month term.

Accepting Applications March 13 - June 30, 2017
